student@ioe-melab01-127:~/google-cloud-sdk

To update your Google Cloud CLI installation to the latest version [565.0.0], run:
\$ gcloud components update

To take a quick anonymous survey, run:
\$ gcloud survey

Modify profile to update your \$PATH and enable shell command completion?

Do you want to continue (Y/n)? Y

The Google Cloud SDK installer will now prompt you to update an rc file to bring the Google Cloud CLIs into your environment.

Enter a path to an rc file to update, or leave blank to use [/home/student/.bashrc]: ^C

Command killed by keyboard interrupt

student@ioe-melab01-127:~/google-cloud-sdk\$./install.sh
Welcome to the Google Cloud CLI!

To help improve the quality of this product, we collect anonymized usage data and anonymized stacktraces when crashes are encountered; additional information is available at <<https://cloud.google.com/sdk/usage-statistics>>. This data is handled in accordance with our privacy policy <<https://cloud.google.com/terms/cloud-privacy-notice>>. You may choose to opt in this collection now (by choosing 'Y' at the below prompt), or at any time in the future by running the following command:

```
gcloud config set disable_usage_reporting false
```

Do you want to help improve the Google Cloud CLI (y/N)? y

Your current Google Cloud CLI version is: 565.0.0
The latest available version is: 565.0.0

student@ioe-melab01-127:~/google-cloud-sdk

To update your Google Cloud CLI installation to the latest version [565.0.0], run:
\$ gcloud components update

Modify profile to update your \$PATH and enable shell command completion?

Do you want to continue (Y/n)? Y

The Google Cloud SDK installer will now prompt you to update an rc file to bring the Google Cloud CLIs into your environment.

Enter a path to an rc file to update, or leave blank to use [/home/student/.bashrc]:
[/home/student/.bashrc] has been updated.

==> Start a new shell for the changes to take effect.

For more information on how to get started, please visit:
<https://cloud.google.com/sdk/docs/quickstarts>

```
student@ioe-melab01-127:~/google-cloud-sdk$ exec -l $SHELL
student@ioe-melab01-127:~/google-cloud-sdk$ gcloud version
```

Command 'gcloud' not found, but can be installed with:

```
sudo snap install google-cloud-cli
```

```
student@ioe-melab01-127:~/google-cloud-sdk$ source ~/google-cloud-sdk/path.bash.inc
student@ioe-melab01-127:~/google-cloud-sdk$ source ~/google-cloud-sdk/completion.bash.inc
student@ioe-melab01-127:~/google-cloud-sdk$ gcloud version
